Feasibility Study and Demand Assessment for Aviation Facility

For the Greenwood-Leflore Carroll Economic Development Foundation in Greenwood, Janus Senior Principals directed a feasibility study and design concept for an aviation technology training school to serve as an economic development catalyst for the region.

The work included projecting the costs, enrollments and revenues of the proposed school, a proposed curriculum, an economic impact analysis, and a competitive assessment of the Leflore-Carroll area in terms of attracting aviation-related companies. The work also included a preliminary design concept and cost analysis for equipment and furnishings.
